THE LESBIAN HEALTH INITIATIVE FUNDRAISING CONCERT
featuring the San Diego Women's Chorus and special guest, Janis Ian!

Sunday, May 22, 2016 @ the Balboa Theatre

VIP reception post-concert at the Hard Rock Café.

“Through musical expression, the San Diego Women’s Chorus encourages women’s creativity, celebrates diversity, and inspires social action.”

San Diego Women's Chorus

is a lesbian-identified, feminist sisterhood of musicians that welcomes members and volunteers from the vastly diverse LGBTQ and straight-ally communities. Founded in 1987 by community activist Cynthia Lawrence-Wallace, SDWC has grown from a group of 14 lesbians gathered around a piano in a private home to a thriving community with over 125 members who believe in the power of music and the power of women. For nearly 30 years, SDWC has provided a safe space that encourages women's creativity, celebrates diversity, and inspires social action. For more information, visit www.sdwc.org.

San Diego Human Dignity Foundation

is the sole community foundation in our region dedicated to the benefit of lesbian, gay, bisexual, and transgender (LGBT) people. We fund programs and projects that promote equal treatment, tolerance, wellness, well-being, and above all else, human dignity. We work to strengthen LGBT organizations and leadership. We nurture philanthropic giving to support LGBT people and address important issues such as aging, arts and culture, health and wellness, youth and families, and civil rights.

In essence, we connect people who care with causes that matter.

Lesbian Health Initiative

San Diego Human Dignity Foundation is spearheading a new initiative that will provide funding for the development of programs to bring assistance, education, and service to the target population. The Lesbian Health Initiative (LHI) will strive to improve healthcare access and outcomes within the greater San Diego community, focusing on the following:

- Assessment of the needs and shortcomings of health care for lesbians within our San Diego community
- Finding ways of addressing those needs successfully through existing or innovative new programs.
- Implementing programs identified and assessing their value over time using appropriate scientific methods.
